CERTIFICATION

FRONTEND DEVELOPER
2023- 2024
Codes-Thinker

ABOUT ME

I am an enthusiastic and detail-oriented individual with a growing skill set in frontend web development, including HTML, CSS, Bootstrap, JavaScript, React, and Tailwind CSS. While I continue to expand my knowledge in the tech field, I am currently seeking opportunities in the customer service industry to build professional experience, strengthen my communication skills, and work in a collaborative environment. I am highly motivated, quick to learn, and committed to delivering excellent results in both technical and customer-facing roles.

WORK EXPERIENCE

FRONTEND DEVELOPER
Codes Thinker (2024-Present)

As a motivated and detail-oriented frontend developer, I have built several personal projects to strengthen my skills in HTML, CSS, Bootstrap, JavaScript, React, and Tailwind CSS. Through these projects, I have learned to create responsive websites, dynamic user interfaces, and modern web layouts.

Although I am a fresher, I am highly committed to continuous learning and staying updated with the latest web technologies. I am seeking a challenging role where I can contribute to real-world projects, work collaboratively within a development team, and grow as a professional developer.

Additionally, I have developed strong communication, problem-solving, and multitasking skills through my previous work experience and personal efforts, which makes me confident to also explore roles in customer support and call center industries while continuing to build my technical career.
